Choice made simple. At GROHE our Masters of Technology and team of designers are tireless in their endeavours to expand our range, meaning that GROHE's selection of designs, materials, sizes and technical features is almost infinite. The result can be a difficult question: how to be certain that your preferred product matches and works perfectly with your chosen sanitaryware? Now there is an instant answer. The GROHE BestMatch online tool, which you can use as a website or an app, instantly provides you with all the information you need to match ceramics and tap by design, comfort and waterflow. Quick as a flash it finds the best tap and washbasin option from more than 3.500 combinations tested in the GROHE laboratory – in other words, the best match.

About Good and Perfect Interaction. Do you want a combination of washbasin and fitting, but also a perfectly matched complete bath solution? GROHE COMPLETE BATHROOM SOLUTIONS

Inspired by your desires. Greater than the sum of its parts. To make it even easier for you to transform your unique idea of a dream bathroom into reality, GROHE now offers you complete bathroom solutions. Our high quality collections, created under the special direction of GROHE Chief Designer Paul Flowers, eloquently demonstrate our design expertise. Enjoy the creative and harmonious interaction of elegant GROHE fittings and matching GROHE ceramics. The GROHE programme PerfectMatch is guaranteed to lead you to a perfectly aligned combination of fittings, ceramics, integrated technology and design. We offer everything from a single source to ensure total design consistency.

We have assembled six different bathroom collections, developed for you with passion, devotion and foresight. The styles range from classical elegance to simple minimalism: softly purist, harmoniously sensual and timelessly practical. Furthermore, all of our bathrooms offer an incredibly wide range of technical features, sizes, materials, colours and details.

Let the six different looks in the GROHE Collections be your inspiration before deciding, at your leisure, which of them is perfectly tailored to you.

EUROCUBE BATHROOM MAKE A CLEAR STATEMENT

Straightforward, attractive and always focused on the essential. Cosmopolitan life in the teeming city becomes a bit more manageable if you are surrounded by straight lines. The overarching concept of GROHE Eurocube evokes the dynamic lifestyle of busy people and celebrates the dramatic beauty of the cube. Enjoy a bit of clarity.

Pure metropolitan design. No ifs, no buts, no deviations. Eurocube bath architecture has that clear sense of rigour that comes with innovative technology, exemplified by the GROHE StarLight® chrome finish.

Modern rationality. The sharply cut square blends visually with the flat surfaces of the elegant double washbasin and the luxurious wall-mounted WC for a harmonious effect.

Eurocube's angular looks conceal something silky soft: GROHE SilkMove® technology for easy handling.

Clear profile. The minimalist 4-hole tub and bold, artistic design combine to form a greater whole.

The modern Eurocube Shower combination with Rainshower® echoes the angular styling.

Innovative design, strictly applied. This range's cubic forms are reflected in all fittings, complementing the whole bathroom to the smallest detail. The geometric washbasin tap employs straight lines and delivers a perfect stream of water thanks to the slightly chamfered spout.

A striking style element, the square cut-out detail on the lever handle softens the angularity and lends a unique look.

ESSENCE BATHROOM UNDERSTATED ELEGANCE

Classic lifestyle, gently interpreted. For people who are attracted by clear, visually pleasing designs, GROHE Essence brings aesthetics without pretension. Complete bathrooms in this range use balanced, modern styling and create space for inventive furnishing ideas and innovative technologies.

Oasis of wellbeing. The minimal design of the Essence Collection employs modern technology but is still a feast for the eye. No collection has ever featured so many leading GROHE innovations, including GROHE AquaGuide and GROHE SilkMove®.

Luxurious shower: The wall-integrated shower solution with Rainshower® head shower and Euphoria stick hand spray adds a luxury touch to your daily showering experience. The design corresponds to the graceful understatement of the Essence range perfectly.

Perfectly sensual. Time and again, Essence uses the cylindrical form in exciting ways. An artful play of shapes recurs throughout the range, from luxurious showers to architecturally shaped washbasins and radiant fittings which are available in sizes S to XL.

Simply beautiful. This elegant freestanding bath is the embodiment of modern luxury. On its own, it is a dramatic centrepiece. The elegant matching floor-mounted bath/shower mixer harmonises perfectly with the distinctive Essence design. Beautiful innovations include GROHE StarLight® for a chrome finish with long-lasting shine.

The fine curved lines run through all mixer models and ceramic designs like a subtle thread.

GROHE THERMOSTATS

Precision control for a relaxed showering experience.

As our gauge when constructing GROHE thermostats we used the most sensitive thermometer around – your skin. The revolutionary thermostats in our Grotherm range ensure that hot and cold water will touch your skin in exactly the proportions you desire. GROHE TurboStat® is a revolutionary technical feature – it provides the correct shower temperature in seconds and keeps it constant. The many elegant design features in these miniature technological marvels are wonderfully innovative.

COMFORT, SAFETY, SAVINGS

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a tap or flushes the toilet; suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

What's inside? Thermostatic valves work by constantly mixing hot and cold water to a pre-selected temperature. Even if there is a change in the water supply, the thermostat reacts by rebalancing the quantities of hot and cold water to maintain the correct temperature. In the most extreme cases, i.e. should the cold water supply fail, the hot water shuts off automatically in a fraction of a second to prevent scalding.

Style choices. GROHE offers concealed and exposed thermostats. With concealed models, the body of the mixer is installed behind the wall. With exposed thermostats, the mixer is mounted on the wall and all the pipe work is behind the wall.

User-friendly features. Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves, and an EcoButton to reduce water usage by up to 50%. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height, while the AquaDimmer allows you to turn the water on and off, adjust the flow rate and divert between two water outlets, e.g. hand shower and bath spout.

GROHE thermostats based on winning technology. LGA QualiTest GmbH, a subsidiary of TÜV Rheinland, carried out a major product test in 2006 comparing several thermostats from leading European manufacturers. Our Grohtherm thermostats came out on top, receiving Number One ranking, thanks to their GROHE TurboStat® and GROHE CoolTouch® technologies. These results have strengthened us in our mission to continuously develop innovative technologies, as our aim is to offer you the best possible technology, always.

GROHE's quick guide to thermostat technology.

What is a thermostat?

A thermostat maintains an exact water temperature of your choice, independent of water use elsewhere at home.

How does it work?

The thermostatic mixer valve mixes the hot and cold water and reacts instantly to any changes in the supplies, ensuring the temperature is maintained within one degree deviation.

What are the benefits?

The pre-set temperature is reached within a fraction of a second and remains constant so there's no risk of scalding.

Are there different types available?

Yes, GROHE offers many different models to suit every style of bathroom.

GROHE TURBOSTAT®

Always the right temperature, for ultimate convenience and safety. GROHE TurboStat® technology lies at the heart of our new thermostat.

The thermo-element's unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower. No more time and water wasted getting the temperature right. And if the cold water supply fails, it reacts instantly: hot water will shut off automatically to avoid the risk of scalding.

Compensating precisely for fluctuations in temperature and pressure results in a consistent and comfortable shower throughout.

The GROHE TurboStat® thermo-element at the heart of GROHE thermostats.

Exceptionally swift reaction to water-pressure fluctuations.

GROHE COOLTOUCH®

Safety first with 100% GROHE CoolTouch®. GROHE's CoolTouch® technology ensures that the entire outer surface never exceeds your preferred shower temperature. By designing our thermostats to include an innovative cooling channel, we have created a barrier between the hot water and the chrome surface - so it's never too hot to handle. This safety measure is especially useful for children, who can not always judge whether something they touch is dangerously hot.

From head shower to luxurious shower system. Ideal for retrofit or renovation, the GROHE Retro-Fit Shower System transforms an existing head shower installation into a luxurious shower system with a head shower plus the added convenience of a hand shower – both featuring GROHE DreamSpray® technology, which guarantees perfect water distribution to every nozzle.

Mounted on a long horizontal 450 mm swivel shower arm and connected via a ball joint, the Euphoria 180 head shower can easily be positioned at the optimum angle. The Euphoria 110 hand shower can be adjusted in height via the gliding element and features three spray patterns.

The upgrade is quick and easy to install. Simply replace an existing shower arm – no need to change the tiles or alter any in-wall plumbing.

Once installed, the GROHE Retro-Fit Shower System is also easy to use: six possible positions on the diverter allow you to choose your perfect setting for hand or head shower, mixed or Eco sprays.

A renovation upgrade without the renovation price tag.

GROHE HAND SHOWERS

Make a statement with one of our designer hand showers. Shower technology has come on leaps and bounds in recent years. From entry-level models – which offer a single spray pattern – to extra-large hand showers complete with a choice of spray patterns, there's a hand shower that will match both your personal and your bathroom's design requirements.

GROHE hand showers are the perfect balance of outstanding quality, cutting-edge technology and award-winning design. Not only do they deliver the perfect showering experience, their unique and inspiring designs are guaranteed to enhance your bathroom.

Water-saving features such as Eco buttons and SprayDimmer will help you to reduce your water consumption, while silicone nozzles help to prevent the build-up of limescale. GROHE EcoJoy showers illustrate our commitment to the environment and encourage water conservation every day.

GROHE POWER&SOUL®

Probably the most innovative shower in the world.

How do you like your shower? A refreshing burst of water to energise and stimulate in the morning – cleansing your body and awakening your mind. Or something a little more relaxing in the evening – soft, restorative air-infused bubbles that gently caress your skin?

GROHE Power&Soul® showers have been created with full appreciation of your moods and needs. Powered by GROHE DreamSpray® technology, four innovative spray patterns – GROHE Rain O², Rain, Bokoma Spray and Jet – offer a choice of tempting experiences. And with the introduction of One-Click Showering, switching between and combining spray patterns has never been easier.

GROHE POWER&SOUL®

Enjoy the choice of innovation. Everyone's idea of the perfect spray pattern is different, which is why GROHE Power&Soul® showers feature up to four different sprays. Revitalising or relaxing, stimulating or soothing, whichever sensation you're searching for, we have a spray to match.

FOR MAXIMUM VITALIZATION IN THE MORNING

GROHE Jet Spray

A focused circular spray which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

GROHE Bokoma Spray

Eight dynamic spray nozzles create a 'breathing' effect, recreating the tension-relieving sensation of a fingertip massage.

GROHE Rain O² Spray

A soft, smooth spray based on our original Rain spray. Air is drawn into the hand shower face and mixed with water for a wider and fuller spray.

GROHE Rain Spray

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking summer rain, the spray provides full and even coverage.

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking warm summer rain, the spray provides a full and even coverage.

Massage Spray

A pulsating spray pattern for a stimulating massage. Gives the unique and invigorating all-over massage.

Champagne Spray

Enriched with air for bigger and softer water droplets. More air means that less water is required when using this fulfilling and gentle spray pattern.
